

Choose Renewable Energy - It's Easy!

Community Energy is proud to participate in the Connecticut CleanEnergy Options Program. This voluntary program allows Connecticut Light & Power and United Illuminating customers to support renewable forms of electricity such as wind and small hydro power while still receiving your electric supply from your utility.

Product and Price

33% Northeast Wind / 33% National Wind / 34% New England Small Hydro

100% Option adds 1.3 cents per kWh

50% Option adds .65 cent per kWh

Make a Difference

Buying 700 kilowatt hours of clean energy per month for one year has the same environmental impact as **planting 3 acres** of trees !

Sign Up is Easy!

You can sign up by visiting us online or completing the adjacent form and mail to the address below the form.

For a typical Connecticut home that uses 700 kWh per month, participating in Connecticut CleanEnergy Options with Community Energy would add about \$9 monthly to your electric bill. No charge to cancel any time. Please Note: All costs are IN ADDITION to your current electric bill.
